

JobSub - Bug #12871

timeout sending /pnfs/.... input file on jobsub_submit

06/07/2016 09:27 AM - Dennis Box

Status:	Closed	Start date:	06/07/2016

Occurs In:			

Description

see INC000000691298. I thought /pnfs files were handled correctly as input, see if you can reproduce, and if so, improve error message

History

#1 - 10/07/2016 06:30 PM - Dennis Box

I understand now, the command `jobsub_submit file:///pnfs/yada/yada` tried to use curl to transport the pnfs file to the jobsub server. This will timeout, you could use `ifdh cp` to read the pnfs file but you cant do normal unix file operations on it. Have to think a bit about best way to handle the error.

#2 - 10/07/2016 06:30 PM - Dennis Box

- Target version set to v1.2.4

#3 - 06/02/2017 02:13 PM - Dennis Box

- Target version changed from v1.2.4 to v1.2.5

#4 - 10/30/2017 10:57 AM - Dennis Box

- Target version changed from v1.2.5 to v1.2.6

May be the same issue as [#17828](#). Client needs to detect if files have pnfs in uri and do the right thing

#5 - 10/31/2017 01:34 PM - Dennis Box

- Target version changed from v1.2.6 to v1.2.7

In general: do the right thing with `-f dropbox:// file://` and `/pnfs`

These are all related tickets (and should be merged into one maybe?) [#17617#17828#16775#12871#13785](#)

#6 - 05/08/2018 09:33 AM - Dennis Box

- Target version changed from v1.2.7 to v1.2.9

#7 - 12/04/2018 05:55 PM - Dennis Box

- Status changed from New to Resolved

fail with understandable error message if file to be posted is mounted but unreadable

#8 - 02/28/2019 10:31 AM - Dennis Box

- Status changed from Resolved to Closed
